Top Rated Institute In Mumbai

Our Vision

To be the best human development institution in the world.

Our Mission

To develop our students in Academic, Mental, Social, Personal, Financial & Spiritual aspects and prepare them for a better life.

Core Values

- Student Satisfaction
- Celebrate Every Occasion
- Leadership by Example
- Integrity & Transparency
- Mutual Trust
- Excellence & Quality

Why Programmatix Institute?

We started this institute with a dream to change and improve the education system in our country. A desire to create an Institution for the youth which will help them to follow their dreams and passion. An urge to strengthen the position of the Indian education system globally, and a strong will to make a difference in the world.

About Us

Programmatix institute has set out on a journey towards developing India's most talented youth who can contribute to the growth of our country. The Programmatix team as a whole, has a vision to help students realise their dreams and mentor them to pave their way towards success.

We, as an institute aspire to grow to newer heights each day. However, what we pledge will remain unchanged, is our strong set of values and ethics and our aim to build a strong value system not only as an institution but within our students as well so that a part of Programmatix remains within each one of our students.

We, at **PROGRAMMATIX** provide a unique **Gurukul environment** for the students which makes learning fun and stress free and develop a strong **GURU-SHISHYA** relationship.

Here, we aim at developing students not only academically but we also aim at their holistic development i.e., develop them physically, mentally, spiritually as well as emotionally. This is, because we understand, that only marks, degrees and qualifications are not enough for an individual to live a fulfilling life. Skills, values, ethics, street smartness, leadership skills, attitude development play an equally important role in an individual's life. However, all of this is done without any compromise on the students' marks and studies.

Here, students are encouraged to explore their potential, move beyond their own benchmarks, navigate their world and discover the scientist, the engineer, the doctor, the entrepreneur within them. We believe in lifelong learning and encourage the same within our students as well, and hence our teachers undergo constant training sessions on a regular basis to polish their skills, reinforce their vision towards the students, strengthen their commitment towards student development.

Our aim is to have a centralized approach and have just **ONE** centre where we can give the best of our energy, enthusiasm, commitment, values and resources, in order to prevent dilution of the same by expanding and having more number of centres.

Testimonials

I'm deeply thankful to Programmatix Institute for being a constant source of guidance and motivation throughout my JEE journey. With the help of their dedicated teachers and positive environment, I was able to strengthen my concepts and stay on track, which helped me secure AIR 3051 in JEE Advanced 2025. The faculty's personal attention and encouragement made even the toughest topics feel manageable. I owe a big part of my success to their support.

Jeet Bhatu , IIT Bombay

I am grateful to have been a part of Programmatix while preparing for my JEE exams. The constant support, guidance, and attention from all the teachers here made the journey much easier and made learning enjoyable. The weekly tests kept me on my toes and made me increasingly prepared for the final examination day. The teachers pushed us to be our best and motivated us during the exams. The positive and encouraging environment at Programmatix is what I think makes them stand out from others. Coming to IIT Gandhinagar has been a dream, and I thank Programmatix for making it a reality.

Kaira Shirodkar, IIT Gandhinagar

Every aspirant, no matter how hardworking, needs proper guidance — and I believe the faculty at Programmatix Institute (PI) played a pivotal role in shaping my NEET preparation. The teachers provided us with an abundance of resources across every subject and had an exceptional ability to simplify even the most challenging concepts. Their teaching was not only concise and concept-oriented but also deeply supportive. We could openly share any academic or personal difficulties with them, and they were always ready to help. What I truly appreciated was their balanced focus on both NEET and board examinations, ensuring we were well-prepared on all fronts. The extra lectures, comprehensive notes, and doubt-solving sessions were immensely beneficial. The true X-factor of PI, however, lies in its vibrant and lively environment. The institute beautifully blends rigorous academics with joyful celebrations of festivals and events, which kept us motivated and stress-free — ultimately leading to better performance. I feel genuinely fortunate to have spent two wonderful years at PI, not only growing academically but also creating countless memories that I'll always cherish.

Harsh Shah, MBBS

Programmatix institute has been the best decision I took for preparing my NEET exam. It had a great impact in my life. The atmosphere they create makes the boring studies enjoyable. They not only pay attention towards academics but also towards the overall personality of student. The weekly tests help to keep us aware about our preparation and improve a bit in upcoming exams. The teachers of PI are fantastic... they help in every possible aspect, make study fun and loving... Thank you so much PI to make my 2 years so special ; that I will cherish for my life time and making my dream of getting an admission in a GMC college of Mumbai making true... Thank you once again

Ritik Ravariya, MBBS Cooper Hospital

I think PI is one of the best coaching for JEE as it has strong teacher-student communication and consistent guidance throughout preparation. The regular tests and discussions developed my problem-solving skills and exam temperament. More importantly, the mentorship from teachers gave me the right mindset and confidence (that I can do it).

Het Diyora, IIT Mandi

My two years at Programmatix Institute were one of the most impactful phases of my life. The teachers were not just excellent at academics but also true mentors who guided me to become who I am today. Their support, motivation, and way of teaching made every lecture fun, engaging, and unforgettable. Even now, I miss the unique environment we had at PI, where learning never felt like a burden. I am deeply grateful to all my teachers for helping me achieve admission in IIIT Pune and shaping both my academic and personal journey.

Atharva Chavan

It is said that classroom is your second home and that mentors are like your parents. Well, it is said in a very true sense. More than half of my day was spent in Programmatix, within those blue and white walls, with books on blue benches and floors to climb. Not just the classrooms were colorful, but the rainbow teachers shed on us by their learnings made my 2 years even more special. Starting from books of homework to solving doubts, they did it all. I'm not exaggerating but yes all the faculty members did sometimes miss their lunch breaks to ensure we get the fuel to our studies. You ask them once, they'll teach you thrice. You feel you aren't motivated enough to score well? Knock their doors and they'll be all set to help you fly. You know, a business man is always know for their after sales. I wouldn't call this so, but even after passing out, if I still call them at 10 in night they'll be there to help me out in every possible way. No matter how difficult the situation is, they'll always be one call away. The entire staff will make you feel like home with their witty and humorous talks. The way mentors in PI teach you is itself an answer to many doubtful questions. PI not only provides you with their notes, with their time but also fuel your future. Words might not be enough to pour in what these 2 years were, but ours and yours and success will definitely be an answer to it. PI isn't just a row of classrooms, it is home to many IITians, doctors, pharmacists and engineers. Truly grateful for being a part of PI team and wherever I be, a part of me will always stay with them!

Testimonials

Joining PI was a great idea . The teachers in PI team are extremely friendly, caring and helpful. The regular tests and personal guidance helped me improve my score and made me motivate . The faculty is experienced and dedicated, and they focus on every student individually. Every class is interactive and the study material is comprehensive. The teachers made even tough concepts in Physics, Chemistry, and Math easy to understand. Thanks to them, I achieved my dream college, IIT Bombay. I will always be grateful to them .

I, **Neel Shah** had enrolled in Programmatix institute with the aim of preparing for **JEE & CET** examinations. Programmatix has provided me with an exceptional competitive environment that is conducive for acing these exams. The resources, support and the atmosphere here have immensely contributed to my preparation journey. The teachers here are highly qualified & were dedicated and very friendly towards students. I received a lot of personal attention and proper guidance at every stage at every stage of preparation. We were a small batch and always used to indulge in discussions which further enhanced our comprehensiveness towards the subject matters. I firmly believe **a systematic & well disciplined schedule** is a fundamental necessity for every little success of life. The foundations laid by the institute in me and the experiences and memories I had here will still **guide me in the future**. I whole heartedly owe a huge part of my success to Programmatix

Neel Shah, IIT Bombay

Programmatix institute is not just an institute it's a family. Here we are taught to excel not only in studies but also in other aspects of life. The environment here leads to an all-round personality development. The faculties here are really amazing and they kindle in us the interest to study. Their guidance, support and motivation help us to ace in exams. It is the best family that I have ever been a part of.

I wanted to express my gratitude to the coaching institute for their exceptional guidance. The experienced faculty and well-structured curriculum provided me with the knowledge and confidence to excel in my exams. The personalized attention and supportive environment truly made a difference in my learning journey. Thanks to their dedicated team, I was able to achieve results beyond my expectations. **I highly recommend this institute to anyone seeking quality education and effective preparation.**

Ansh Viradiya, IIT Hyderabad

First of all the student centric approach that Programmatix has to offer is top class be it a doubt lecture or a test series every thing has a systematic way to increase the efficiency of the aspirant tremendously. The thing that has helped me the most is that Programmatix channelises the time and effort of the students in the correct direction rather than anywhere else and in the end, I would like to say that from

Krish Badlani, Lokmanya Tilak Government Medical College - Mumbai, MBBS

My time at Programmatix Institute has been nothing short of remarkable. The stress-free environment, ambitious peer group, focus on overall development, and supportive teachers have all contributed to making this institution an ideal place for 11th and 12th grade science stream students. I highly recommend Programmatix Institute to anyone seeking quality education coupled with holistic growth opportunities.

Nachiket Amrute, IIT Dhanbad

Enrolling in Programmatix has been an enlightening experience. Their passion for the subject matter is contagious, making every session engaging and thought-provoking. The way they break down complex concepts into easily digestible parts has greatly improved my understanding. I appreciate their dedication to creating a supportive learning environment where questions are encouraged and no one feels left behind. Thanks to Programmatix, **I've gained valuable insights that I'll carry forward in my academic and personal journey.**

PI provided comprehensive study material, expert faculty, regular assessments and extra curriculum activities too and helping me stay on track for JEE Mains 2024. The faculty of PI makes sure that every student understands the concept well. Throughout my journey I faced many ups and down but my mentors helped me a lot. The mock tests and doubt clearing sessions were particularly helpful. Overall, it was a great learning experience that helped me achieve my goal.

Het Patel - 99.51%ile, NIT Jaipur

Programmatix has helped me a lot in clearing my JEE exams. Teachers explained concepts very well. The modules provided by the institute were very relevant and made in such a way that the fundamentals of every topic were clear. I found the student engagement to be the best. Everyone helped each other and cleared doubts while competing in the exams held every Sunday. Teachers pointed out areas which needed improvement and ensured nothing was left out. Overall I would say that my 2 years at Programmatix were great and it played a very big role in achieving my goal.

Avaneesh Kamath - 99.52%ile, NIT Surat, BITS Goa

Programmatix is an institute where I got a positive treatment, competitive environment and supporting faculties. The study materials and a huge no. of mock tests held at P.I. were of great importance. They helped in building up my concepts and for practice. The teachers here are very supportive, knowledgeable and kind. They guided me at each and every step. Also they were always positive about my selection and never let me down. They helped me to be motivated and focused at my goal. They not only guided me for cracking the exam but also for the admission process. The non-teaching staff is also very cooperative, kind and polite. They help the students in every manner they can. To sum up with, Programmatix institute is just fantastic. I feel very proud and lucky to be a part of P.I. family. Thank you

Dhanashree Bhurke - NEET 623, MBBS

Programmatix Institute helped me achieving the goals which I had never dreamed of. It provided me a Good competitive Peer Group which helped me to unleash my potential. The Supportive nature of the all the Faculties, Management Team and the Staff is commendable. The Faculty - Student relationship is what differentiates Programmatix Institute from others. There is One On One Interaction between them. The Guidance provided by the Faculties at each and every step was crucial. The Mentorship Programme revealed a new version of myself. At the end the cherry on the cake was the Extra curricular Activities which is necessary for all Aspirants

Karan Mansuria - 99.61%ile, IIIT Bangalore

The Choice of choosing Programmatix has turned out to be the best decision. The Faculties of the Programmatix made me believe in myself and capabilities when I myself didn't. The Peer group over here led me set my boundaries even wider. The Competitiveness which Faculties and even Peer group helped to roll in us has been the first step to reach towards success. The planning of Programmatix made the journey of our milestone way more smooth, which enabled us to only focus on Execution. The Mentor-Mentee strategy has evolved me to grind even harder. The completion of weekly goals and submission of weekly updates to Mentors has made us more dedicated towards our goals and has been the true essence of our 2 years of preparation. Programmatix has truly made me stand more nearer to my goal than I would have been if under someone else's shade. Thank you for all

There are many coaching institutes churning students with good academic records. But an institute inculcating value based learning with academic rigour is a rarity. We were fortunate we experienced it with PI. Every member of the PI team, faculty, staff, coordinators ensured every student seamlessly inculcated value based learning and did their best in academics. The well rounded personality development sessions have sown seeds of successful leaders in different walks of life. During the testing times the entire student fraternity went through, PI held the entire family together and helped us face stormy times with ease. In short, PI was part of our home with an objective to ensure our children set sail towards successful destinations. **God Speed to the entire PI fraternity and look forward to seeing PI as the best institution of the nation.**

Parent's Testimonials

My perspective as a parent: Programmatix is an institute which helps maintain a positive temperament and a competitive spirit in the child throughout the 2 years which is its most commendable aspect. There is adequate pressure, abundant motivation and zero burnout in the child which is so important.

How PI is different: • They actually have periodic PTM's • The teachers know each child personally and have detailed feedback for everyone. • The teachers are passionate to lead the children to their goals. • Teachers are approachable in every sense of the word • The institute emphasises on board performance also. • They guide in every step of the way.

As a parent I have seen the PI team work tirelessly to help and guide the children, answer every query posed by a parent and celebrate the child's success too! I couldn't have asked for more.

Parent's Testimonials

I'm thrilled to see the institute continuing to thrive and grow! As a parent, I've experienced firsthand the nurturing environment and exceptional education provided here. My child has blossomed under the guidance of the dedicated staff. The institute's commitment to academic excellence, combined with its focus on character development and extracurricular activities, has made it an ideal place for my child to learn and grow.

I'm particularly impressed with: • The state-of-the-art facilities and resources. • The engaging and inclusive curriculum. • The supportive and passionate teachers.

It is indeed heartwarming to see the institute remaining true to its values while innovating and adapting to the changing needs of students. I feel grateful to see my child benefiting from the ever-shining excellence. Keep up the fantastic work! I'm proud to be part of this community."

Minal Sanghvi. Faculty, Children's Academy Group of schools

There are many coaching institutes churning students with good academic records. But an institute inculcating value based learning with academic rigour is a rarity. We were fortunate we experienced it with PI. Every member of the PI team, faculty, staff, coordinators ensured every student seamlessly inculcated value based learning and did their best in academics. The well rounded personality development sessions have sown seeds of successful leaders in different walks of life. During the testing times the entire student fraternity went through, PI held the entire family together and helped us face stormy times with ease. In short, PI was part of our home with an objective to ensure our children set sail towards successful destinations. God Speed to the entire PI fraternity and look forward to seeing PI as the best institution of the nation.

"I'm incredibly grateful to all the teachers of the PI team who truly care about their students' well-being, learning, future, and so much more that words can't fully express. The PI team has always been there, not just for the students, but for the parents as well. The confidence and guidance you provided in helping us secure admission to the best colleges has made a huge difference. Saying 'thank you' doesn't feel like enough for everything you've done over the years. Hats off to all of you!"

I am thankful to the entire PI team for the wonderful 2 years my child spent in this modern day gurukul that instilled great values apart from studying hard to achieve career growth. Their continuous support and guidance till the time kids secure admission in the best engineering college as per their calibre is highly appreciated.

This institute provides wonderful academic journey to the students. It not only gives a great teaching to our kids but also grooms them for future life lessons. From Head of the institute to all learned professors, from management staff to all helpers, everyone give great support to our kids. Professors are always ready to solve any doubt at any hour of the day. Even they never discourage parents to ask any queries. I really appreciate their endless efforts to boost kids' spirit, their confidence and their motto. I thank each and every professor to give vision in my son's eyes and helped them till it got fulfilled. Thank you all My son has secured admission in BITS Pilani, Goa campus in CS.

I am delighted to share my heartfelt appreciation for Programmatix Institute, whose exceptional guidance and teaching played a pivotal role in my child's success in the JEE exam. Supportive faculty, comprehensive study materials, and rigorous practice helped my kid achieve his dream college. Teachers at PI conducted extra doubt solving classes even at midnight so that all the doubts are cleared. PTMs kept me updated regarding the child's progress. Regular motivation sessions helped Saumya to not give up and continue trying. They even guided us throughout the admission process and made it simple. I would highly recommend PI who is seeking quality and interactive education.

It's been an enriching journey with the institute. It has a dedicated team of professors and support staff. They have been a constant support to us parents and the students especially during the lockdown when the future seemed so grim. They have gone online within 4 days of the lockdown and encouraged students to cope up with the online mode. They were readily available to offer support or answer any query. Apart from the academics they conducted webinars inviting esteemed guests, ex students who have excelled in their fields and calmed our anxious nerves. In this age of stiff competition where each is running a rat race, here is a Institute just like our olden **GURUKULS** waiting with open arms to accept the students as they are and refining them to be professionals in their own field. Where **MONEY** plays an important role in the field on education and everything is so commercialised now, this is an Institute that went ahead silently teaching the students even during the pandemic without presurising for fees. **Hatss off to their selfless dedication and commitment.** They have been with Us right upto the time of obtaining admissions and helping us with the regular updates on seats. **I pray that this Institute may become a Renowned Academy and an institution where not only academics but values are taught. Thank you !**

Parent's Testimonials

It gives me immense pleasure to get a chance to appraise the efforts of the entire staff of PI during COVID-19, a very rare & sensitive situation. I really appreciate the burning potential of all teachers who are doing their best to educate our children. U all are engaging children in productive & constructive operations. Your efforts are surely going to help kids to enlighten their future endeavors. THANKS

Thank you young dynamic Energetic enthusiastic Programmatix team for your full hand holding support and guidance till the young lads get in their next phase of life ..that guidance sought to be very important and beneficial which will lay a very strong foundation of future India ...thank you all and best wishes for your future and also future of Young India...

For me you guys do not stand as PI team but a family. These 2 years you guided my child very well, as a mother even I have felt that you have considered my suggestion towards my child's studies and I feel very proud that my child was in safe bearer hands and the results are evident. Evry PI member from faculty, office staff as a parent I feel everyone cooperated very well. I would pray that your team keeps evolving more and more help many students ahead. **Thank you all!**

Heartfelt Thanks to PI Team We, the parents of Akshat Patel, would like to sincerely express our gratitude to the entire PI Team. After completing his 10th exams, Akshat was unsure about his future studies. He had a thought of pursuing B.Sc., but without a clear direction. It was only when he visited PI for admission to 11th & 12th (through a friend's reference) that he began to understand the different career opportunities ahead of him. During his journey at PI, your constant guidance and mentorship not only gave him clarity but also shaped him in every possible way—academically, technically, physically, mentally, and personally. Akshat always had the dream to fly high, but it is you who gave him the right direction and wings to achieve it. And this support was not only for him, but for every student in his batch. As parents, our ability to guide our children is often limited. But what PI has done is truly remarkable—you have transformed students into precious diamonds of 24-carat purity. It is because of your valuable support and mentorship that Akshat has secured admission to Sardar Patel College of Engineering in Mechanical Engineering. This milestone has been possible only due to your encouragement and guidance. We know this is just the beginning of his career. We humbly request your continued blessings and support, so that students like Akshat can keep moving forward without losing direction. There are truly no words to express our feelings. If we continue, our emotions will flow out as tears of gratitude. So, we pause here, with folded hands and heartfelt thanks to the entire PI Team. From the bottom of our hearts, thank you, PI Team, for being the guiding light in our child's life. With deepest regards and gratitude.

Parents of Akshat Patel

I would like to sincerely thank the entire Programmatic Institute team. It is the best institute for 12th science students and for securing admission into top engineering colleges. The guidance and motivation they provide are exceptional, and the teachers are simply outstanding. Their constant support and encouragement inspire students to give their best, making the entire learning journey both effective and enjoyable.

In 2023 Me n my Daughter planned to check all the classes in Borivali in one day as we stay out of Mumbai. We got the list n visited all of them. Was not happy with initial classes seen. Getting feeling of Inme kuch toh kam hai. Then the last one to check was PI. Then visiting here, we were satisfied n decided to take admission at PI. Later once the classes started n going thru the Parents WhatsApp group about the activities going on, got confidence that we r at the Right n Sahi n Best n Dedicated place. Then there was no looking back. We Parents were confident that our Daughter will get the best seat she wants with guidance of the PI Team. The matter was just to wait till 2025. N THE RESPECTED PI TEAM n our Daughter came out with the best. She got admission at NID Jorhat Assam for B. Des which she dreamt of. I thank heartfully to All the Respected Faculty n the Non tiring Supportive Staff of PI. They all r like a Dhruv Tara to all the Students. They will keep inspiring to Students n also to Parents like us in our Future Life. Thanku Very much to All of U over there at the Best Class PI I have ever seen.

Well my son ; Hrishi Tripathi was under the wings of Programmatix for 2 years and the experience was amazing .The faculty has been very supportive and motivating throughout his tenure with them .The best part about the classes was the personal touch they gave to each child. Regular assessments and feedback helped us as parents identify areas of improvement.

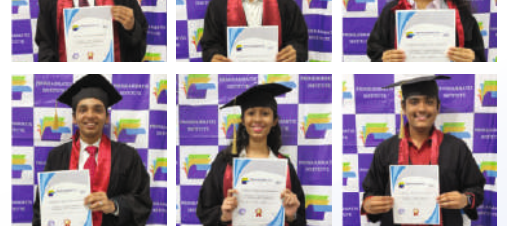

I personally recommend Programmatix to each one whom I meet who aspires to be an engineer... Keep the good work going team. You guys are not just coaching but touching lives.

Dr. Pinky Tripathi, Principal - TRPS

It's with the deepest feeling of gratitude and everlasting admiration that I write to you and your PI family - an entire class of 11,12 studied by Aryan Bansode at PI was joyful unfolding for our family in your PI, and yet just a chapter in your longstanding and tireless mission of creating the vision of having long career in future. We are the lifetime beneficiaries of your earnest, generous, and limitless gift of your caring & timely support. I try to make it to every single activity conducted by PI with your best efforts & team work, because you manufacture learning as a joy, rigor & passion among students! Thank you for the gift of sharing knowledge inculcating ethics, values in my son through team of PI! I hope you find many moments of peace, contentment and celebration in the years to come!..... With love, Dr Rajesh Bansode and family.
